PETITE PAMPERING

Olive oil has loads of monounsaturated fats, as well as antioxidants, which is why health practitioners recommend that we incorporate it into our diet. Mediterranean people claim it's the secret to their good skin. Kloovenburg, which has won numerous awards for its excellent quality of extra virgin, has recently launched a range of olive oil body products. These are fantastic for travelling as they keep the skin well moisturised but not sticky. Best of all, some of the products come in 50ml tubes so one can keep them in hand luggage when flying. We loved the heel balm (R54), hand cream (R54) and nail treatment (R44). 022-448-1635
