

BEAUTY

## Kloovenburg

A new, olive oil-based line from the famous wine producers.

**They say:** "An olive oil base lies at the heart of this natural, effective cream. Its ideal texture ensures optimal absorption and its subtle fragrance makes it a pleasure to use."

Meanwhile, *Fairlady* called the Olive Oil Body Butter "one of the most beautiful body butters we've ever had the pleasure of trying".

**Our verdict:** Kloovenburg scored points straight away for its sleek black and gold bottles that look good enough to leave out on the bathroom shelf (other than Theravine, all the other lines we tested had a somewhat blah approach to packaging). With the exception of the too-thin shower scrub, which had a disconcertingly toothpaste-like scent, textures were perfect — light enough to use every day, but with enough heft to leave skin feeling smoother and softer.

**We love:** The Olive Oil Body Butter really is as good as everybody says it is. But special mentions have to go to the beautifully fragrant Olive Leaf Shower Gel and Olive Oil Body Lotion.
